

"Leading the World in Affordable, Effective Portable Foam Systems"

4037

FOG / STRAIGHT STREAM NOZZLE

The Scotty combination Fog/Straight Stream Nozzle with D-Handle shut-off has superior design characteristics to work effectively in today's fire fighting environment. Manufactured from glass-reinforced, engineering grade nylon, this lightweight unit is extremely durable and is not susceptible to corrosion. It can be used with Class A or Class B foams. The 4037 is available in flow rates of 70 gpm (4037-70) and 30 gpm (4037-30). Both flow rates come with 1.5" NHT and NPSH female swivel connectors.

4037

Available in 1-1/2" NPSH (4037) or NHT (4037A) Threads.

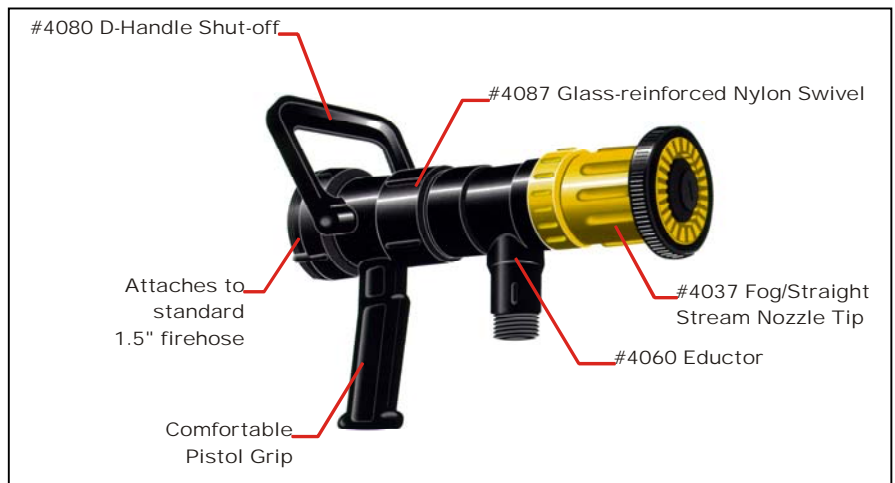

4082/83 Reducer

Changes 1-1/2" thread down to 1".

Designed for flexibility, the nozzle tip can be detached so a Scotty Foam Eductor can be inserted between the tip and shut-off valve (As illustrated at right).
