

# Drip Defender

## Spill Collection Pad

The Drip Defender is a rugged, easy-to-use, all purpose spill collection pad that will catch drips from under all types of vehicles, industrial machinery, or any other potential sources for leaks.

### Standard Features

**Material** - rugged Chem-Shield material which is suitable to -34 degrees C. and resistant to fuels, oils and most chemicals.

**Window** - Accomodates a standard 19" x 17" (48 cm x 48 cm) absorbent pad. Only the absorbent pad needs replacement.

**Grommet** - Permits quick retrieval from under a vehicle when a cord is attached (cord is optional).

**Storage** - The Drip Defender can easily be folded or rolled up for storage.

**3 edge styles are available: Unsupported, Foam supported & Chain supported**

**The Drip Defender will catch drips under vehicles**

### Edge Features

**Unsupported** - ideal for indoor use and can easily be rolled up for storage.

**Foam supported** - permits vehicles to drive over it without damage and enables excess liquid containment after the absorbent pad is saturated.

**Chain supported** - the weighted edge allows for outdoor use and enables excess liquid containment after the absorbent pad is saturated.

### Custom Models

- Custom sizes are available in each edge style
- Custom window sizes are available for various sizes of absorbent pads.
- Multiple window configurations are available to extend the protection area.
- Windowless versions are available.
