

Heliwell

Large Capacity Helicopter Dip Tank and Water Storage Tank

Large, rigid sided, fully portable and deployable in the field, the Heliwell tank is ideally suited as an on-site helicopter dip tank during wildland fire operations.

Available in four sizes, the Heliwell is large enough to fill a 2600 USG Bambi Bucket completely full.

Comprised of ten aluminum wall panels, the Heliwell can be easily transported to the fire site to be used as a helicopter dip tank or fire retardant mixing tank.

Alternatively, the Heliwell can be used for potable water storage with the optional Aqua-Shield liner.

The Heliwell can fill a 2600 USG Bambi Bucket completely full

Features

- Fast assembly: less than 2 hours with 3 people
- Fills in less than 1 hour (with a 300 USGPM pump) minimizing wait times
- Large open top (up to 16 ft./4.9m diameter) allowing access for even the largest size Bambi Bucket
- Outer aluminum shell separates into 10 panels allowing for easy transport
- Heavy duty vinyl fabric liner will withstand rough treatment
- Optional Potable Water liner available for emergency remote site water supply

Accessories

- Protective roof and liner for potable water usage
- Plastic edge protectors to use as a protective rim
- Primary or secondary heavy duty bottom impact pads
- Aluminum carry pallet for ground shipping
- Fluid level gauge
- Self-supporting secondary containment Insta-Berm for added environmental protection

Specifications

MODEL	Capacity	Diameter	Height	Weight
HW-0500	5650 USG (21,385 L)	12' 8" (3.9 m)	6' (1.8 m)	580 lbs. (264 kg)
HW-0700	7100 USG (26,873 L)	12' 8" (3.9 m)	8' (2.4 m)	730 lbs. (330 kg)
HW-1000	9425 USG (35,674 L)	12' 8" (3.9 m)	10' (3 m)	850 lbs. (386 kg)
HW-1500	14,900 USG (56,397 L)	16' (4.9 m)	10' (3 m)	1270 lbs. (580 kg)
