

# Oasis Frame Tank™

## Description

Firefighters have long recognized the value and ease of use of foldable frame tanks.

The Oasis Frame Tank has been proven to be a highly practical solution to rural fire fighting, where reliable water sources are scarce.

The Oasis Frame Tank can be unloaded and setup in less than 30 seconds by two people.

While the pump draws the water from the Oasis tank, the water tender can make the trip for more water. Draining is easily done by a 10" (25.4 cm) dump sleeve.
